

Brain Injury:

It's The Last Thing On Your Mind

**The Brain Injury Association of Nova Scotia
wants to know what is on your mind.**

We are doing a survey of survivors of brain injury,
their family members, caregivers, and the
professionals who work with them.

Your input will help us determine what you need
and how to better serve those needs.

If you would like to have your voice heard, go to
<http://bianssurvey.50webs.com> or contact Nancy
at (902)473-5199 to find out how you can
participate.
